**Protested**.....

.....APPROVAL.....OF STATE ENGINEER

This permit is issued subject to existing rights. It is understood that the amount of water herein granted is only a temporary allowance and that the final water right obtained under this permit will be dependent upon the amount of water actually placed to beneficial use. It is also understood that this right must allow for a reasonable lowering of the static water level. This well shall be equipped with a two (2) inch opening for measuring depth to water. If the well is flowing, a valve must be installed and maintained to prevent waste. A totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of water begins, or before the Proof of Completion of Work is filed. This source is located within an area designated by the State Engineer, pursuant to NRS 534.030. The State retains the right to regulate the use of the water herein granted at any and all times.

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

(SEE PERMIT TERMS CONTINUED ON NEXT PAGE.)

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and

not to exceed 0.6684 cubic feet per second, but not to exceed 131.4

million gallons annually.

Work must be prosecuted with reasonable diligence and be completed on or before May 3, 1986

Proof of completion of work shall be filed before..... June 3, 1986

Application of water to beneficial use shall be made on or before..... May 3, 1989

Proof of the application of water to beneficial use shall be filed on or before..... June 3, 1989

Map in support of proof of beneficial use shall be filed on or before.....

Completion of work filed..... IN TESTIMONY WHEREOF, I..... PETER G. MORROS.....

OF APPLICANT TO COMPLY WITH THE PROVISIONS OF PERMIT

**JUL 13 1989**

OF APPLICANT TO COMPLY WITH THE PROVISIONS OF PERMIT

STATE ENGINEER

This permit is issued under the provisions of NRS 534.120(2) as a preferred use. No perforations shall be put in the production casing from ground level to 100 feet.

The total combined duty of water under permits 47206, 47207, and 47208 shall not exceed 131.4 million gallons annually.
